GSM: Grams per square metre

NOMEX® IIIA FABRICS

93% Nomex®, 5% Kevlar, 2% Carbon Fibre

Nomex® IIIA and Tecasafe Plus 700-A fabrics are inherently flame resistant and will never melt. The fabric will protect the wearer from heat and flame of a flash fire. It also provides valuable seconds of protection for escape and minimising the potential for burn injury.

FR SHIRTING FABRICS

Power Dry®: 70% FR Modacrylic, 30% Lyocell

Tech T4™: 55% FR Modacrylic, 30% Lyocell, 15% Nylon

Tecasafe®: Modacrylic, Lyocell, Aramid

Sometimes staying dry is the key to staying comfortable. Lingering sweat can make us feel heavy, damp, and clingy. Our shirting fabrics are the premier fabrics engineered with superior wicking capabilities that moves moisture and keeps you dry.
