# COMPANY PROFILE

Established in 1997, Sisley Clothing Australia started as a home-business with the ten years prior experience brought by Matt Sisley as a pattern maker for a local men's suit manufacturer. Based in Newcastle, the operation now has a valued team of staff from administration, to cutting, machining and embroidery helping to bring "Intelligent Protection" to the aviation, resource, and tactical sectors. Honoured to be producing onshore, our company is proud to be an Australian made & owned business, accredited through Ethical Clothing Australia. Being ISO certified (ISO9001:2015) as a manufacturer of flight suits, Hi-Vis and hazard-protection workwear provides our end users that extra assurance of quality systems.

Australasia's leading custom-made flight suit manufacturer, Sisley Clothing Australia's protective garments are in strong demand from the aviation industry and are a well-recognised and trusted brand. We give our customers the choice of creating their own style, colour, and branding requirements, unmatched by any other provider. With an extensive range of colours and weights in Nomex® material and optional components, Sisley's manufacturing is all done in-house at its Newcastle factory. Choosing only the best suppliers of Nomex® Fabric, Nomex® YKK Zippers, Fire Retardant Hook & Loop, Nomex® Thread, and Fire Retardant Reflective Tapes allows Sisley Clothing to stand by our outstanding products, this is backed up by a twelve-month conditional warranty on our manufactured range.

ISO 9001:2015  
Quality Management System  
Certified since July 2013

Australian Made and Owned  
Registered since August 2012

Ethical Clothing Australia  
Accredited since May 2013

Sisley's main customer base is aeromedical, and extends across fire bombing, oil and gas, mustering and marine transfer pilots, police airwings, search and rescue, and other government agencies. With no minimum orders, we are happy to produce for the individual pilot or small crew. Sizing kits are also available to best assist with fitting.

Sisley maintains a database of records to allow personnel to refer to historical sizing and styling for future ordering. Orders can be expedited for anyone with urgent requirements, simply by adding an urgent-order surcharge.

Sisley Clothing Australia is the Australian distributor for Evolution Helmets, commonly known as EVO, which matches their branding with customisation – allowing customers to pick and choose from a wide range of colours and configurations. Helmets are a special order item, but parts are stocked and refurbishment services are available. EVO helmets meet approval from the DOI (Department of Interior) specifications in the U.S.A. Made in Melbourne, Florida, the Evolution Helmets represent great value. Choose to compliment your helmet with any configuration you want—EVO has you covered.

Like any good business, Sisley's back bone comes from the people that work 'in the engine', right through to the end customer relationships. A continuous trend for reinvesting in the business with new machinery, technology and training has got Sisley to where it is today and keeps us moving in the right direction.

**CUSTOMISATION, SERVICE AND  
NO MINIMUMS IS OUR  
POINT OF DIFFERENCE TO YOU.**

## NOMEX® IIIA FABRICS

93% Nomex®, 5% Kevlar, 2% Carbon Fibre

Nomex® IIIA and Tecasafe Plus 700-A fabrics are inherently flame resistant and will never melt. The fabric will protect the wearer from heat and flame of a flash fire. It also provides valuable seconds of protection for escape and minimising the potential for burn injury.

## STANDARD FLIGHT TROUSERS

Nomex® Trousers are made to order with your choice of fabric colour and weight from the many options available (pages 4 & 5). Understanding the needs of aviators, the style is made with the standard features listed below, using fabric that is “no melt, no drip” for the life of the garment.

### STANDARD TROUSER FEATURES

- Available in all fabrics.
- 5cm belt loops.
- Fob pocket (coin pocket).
- Adjustable waist with multi-fit buckles.
- 1 x right hip flap pocket with button.
- 2 x front trouser pockets.
- 2 x Nomex® zipper thigh pockets (both horizontal zippers).
- 2 x Nomex® zipper bellow cuff pockets.
- 2 x Nomex® zipper cuff closures (to make entry fast and easy).

Multi-fit Waist Buckle.

**Take a closer look at the range of options available.**

Refer to pages 10 & 11 for a wide range of additional extras available to create that extra tailored functionality for the end-user.

Refer to pages 12, 13, 18 & 19 for reflective tape options, heat transfers, embroidery and badging that can be added on request – these are available as standard options or customised with logos to help teams achieve their corporate look.

**Maternity trouser design also available.**

**3D CONFIGURATOR  
NOW AVAILABLE!**

## TACTICAL FLIGHT TROUSERS

Nomex® Tactical Trousers are made to order with your choice of fabric colour and weight from the many options available (pages 4 & 5). Featuring a foam insert knee pad with hard outer shell, our Tactical Trousers offer comfort and durability. The style is made with the standard features listed below, using fabric that is “no melt, no drip” for the life of the garment.

### STANDARD TACTICAL TROUSER FEATURES

- Available in all fabrics.
- 5cm belt loops.
- Fob pocket (coin pocket).
- Adjustable waist with multi-fit buckles.
- 1 x right hip flap pocket with button.
- 2 x front trouser pockets.
- 2 x Nomex® zipper thigh pockets (left vertical, right horizontal).
- 2 x Nomex® zipper cuff pockets.
- 2 x Nomex® zipper cuff closures (to make entry fast and easy).
- Removable foam insert knee pads with hard outer shell.

Multi-fit Waist Buckle.

Refer to pages 10 & 11 for a wide range of additional extras available to create that extra tailored functionality for the end-user.

Refer to pages 12, 13, 18 & 19 for reflective tape options, heat transfers, embroidery and badging that can be added on request – these are available as standard options or customised with logos to help teams achieve their corporate look.

Vertical height of knee pad can be adjusted by elastic draw-cord hidden inside thigh pockets.

Hook & loop tabs behind the knee control the horizontal placement of padding over the knee.

Take a closer look at the range of options available.

## \ FLIGHT JACKET

Nomex® Jackets are made to order with your choice of fabric colour and weight from the many options available (pages 4 & 5). Understanding the needs of aviators, the style is made with the standard features listed below, using fabric that is “no melt, no drip” for the life of the garment.

### STANDARD JACKET FEATURES

Available in all fabrics.

# EVOLUTION HELMETS

\ LIGHTWEIGHT KEVLAR & CARBON FIBRE  
 \ READY TO FLY

AUSTRALIAN DISTRIBUTOR

**EVO 052**  
Single Inner Lens

Featuring a single inner lens only, the EVO 052 provides an excellent low-profile solution. Perfect for working in confined spaces but keeping everyone in mind with the option of a Sun Peak Visor. For our options and inclusions, see previous page for more information or simply configure your choices online.

**EVO 052**  
Sun Peak Visor

**EVO 152**  
Single Outer Lens

Achieving the look and feel of the EVO252, the EVO152 is fitted with a single outer lens only, keeping the options open for everyone's flying conditions. For our options and inclusions, see previous page for more information or simply configure your choices online.

**With externally fitted lens, this is a great option for pilots and crew wearing large frame prescription glasses.**

## SPARE PARTS & HELMET REFURBISHMENTS

Aviation helmets go through a lot to keep you safe, and we recommend having them routinely inspected and restored to keep them in prime condition and avoid damage from debris build-up or wear and tear. We stock a wide range of parts (including lenses, padding, cables & adapters, and comms pieces) and our team at Sisley HQ in Newcastle, NSW is proud to offer in-house helmet refurbishments.

# HELMET SERVICES & ACCESSORIES

## CUSTOM PAINTWORK

Customise your new EVO Helmet with paintwork on the shell and visor cover. Call our team to discuss your ideas today!

## HELMET ACCESSORIES

### \ HELMET BAGS

This super tight knit nylon shell is extremely water resistant and provides superior protection for your expensive equipment. It will not scratch your visor if your cover comes off. Available in Black, Navy Blue and Olive Green.

**FLYBOYS**  
GEAR FOR PILOTS

### \ WI JAC

This Wireless Intercom System offers superior untethered audio quality. Waterproof protection up to 1m depth for 30 minutes, with removable belt clip mounting, it features great battery life and ergonomics

### \ SKULL CAPS

Proudly Made by Sisley Clothing Australia, our skull caps are designed with comfort and easy-wash in mind. Made with Flame-Retardant 88% Cotton, 12% High Tenacity Nylon interlock knit material and FR threads, this material is designed to absorb sweat. Available in Navy and 3 Sizes.

**H-CMR**  
Multi-Role

Slightly over one kilogram and ready to fly, the H-CMR Helmet from LD Switzerland Helmets is considered an excellent multi-role helmet and the go-to option for both fixed- and rotary-wing aviators.

- ✓ Ultra-Lightweight
- ✓ Innovative Design
- ✓ Exceptional Level of Comfort
- ✓ Very High Passive Noise Reduction
- ✓ DOI / USFS Certified

**H-CMR**  
Maxillofacial Shield

Lined with isophonic foam, and made from carbon and aramid materials, the aviator will achieve clear radio communications while being protected from rotor wash and debris with the Maxillofacial Shield. Equipped with

an easy-to-use coupling/uncoupling mechanism that will remain anchored to the shell via its safety strap.

## H-CMR OPTIONS
